

Key features

Rail Supply Growth Fund

Location availability
Across England

Investment amounts
£500,000 to £2m

Sector
Rail supply chain

Finance Birmingham manages on behalf of the Department of Business, Energy and Industrial Strategy a £20m Rail Supply Growth Fund to provide access to affordable finance to increase the capability, competitiveness and productivity of the rail supply sector.

Key Features

- Fund designed to support the delivery of the Rail Supply Group strategy.
- Available finance of between £500,000 and £2m.
- Allows accelerated routes to market in the growing rail supply sector.
- To fund growth for existing businesses.
- Funds contribute towards working capital, new capital expenditure and/or product launch.
- For businesses working in rail or crossing over into the industry.

Eligibility criteria

- Terms and fees will apply.
- Must be (or will be) based in England and activities using the fund must have economic benefits predominantly in England.
- Ability to supply into or participate within the rail supply sector.
- Increase capabilities, productivity and competitiveness, leading to the creation and/or safeguarding of jobs in the UK.
- Must be able to demonstrate a trading history.
